Professional summary

Digital marketing and growth specialist with 3+ years of experience across agency, client and independent work. I connect acquisition, content, SEO and measurement, from understanding search demand and shaping the offer to building pages, managing campaigns and improving delivery. Advanced practical AI expertise expands my capacity to research, automate and build the solutions a team needs.

Professional experience

Tahliq Digital Agency | Performance Marketing Specialist

January 2024-present | Project-based engagement | Remote

- Personally handled work for more than 20 clients across Google Ads, websites, landing pages, SEO foundations and tracking; created more than 200 landing pages for the agency.
- Connected keyword and search-term research, messaging, offers, dedicated pages and contact-action tracking to the acquisition journey. Contributed to budget allocation and performance review.
- Contributed to strategy, funnels, proposals, sales meetings and client advisory work, while reviewing team output and guiding delivery.
- Developed tracking, analytics, CRM and automation workflows with Python, n8n and AI tools. Configured agents, Codex, Claude Code, custom skills and MCP integrations, and trained colleagues to use them.
- Built a shared model environment serving four people for less than US$8 during the working day, allocating stronger models to harder tasks. Developed practical tooling fixes with agents and contributed to LocalAI, OpenClaw and n8n-skills.

Digital Brandria | Digital Marketing Strategist

May-October 2025 | Full-time | Maadi, Egypt

- Worked directly with the CEO on market and competitor research, strategy, commercial and pricing proposals, and feasibility studies.
- Audited campaigns, advertising accounts, websites and SEO; identified conversion-tracking errors and issues affecting the assessment of lead quality.
- Led a five-person team on media presenter Youssef El Sherif's digital presence project. Coordinated content improvements, distribution and performance review; the team doubled average YouTube video views within the first six weeks.

Independent client work

Direct engagements, Upwork and Mostaql | Independent

Delivered acquisition, content, SEO and conversion work directly and through Upwork and Mostaql, earning five-star ratings. Markets included Egypt, Saudi Arabia, the UAE, Kuwait and Jordan, as well as the United States, Canada, Brazil and Australia.

Abdullah Mansour

Digital Marketing & Growth Specialist

Selected work

Zone10 | Search-led acquisition

December 2025-April 2026 | Riyadh, Saudi Arabia

Built and managed the research, strategy, messaging, Google Ads campaigns, dedicated landing pages and tracking for an interiors business. More than **350 people contacted the company** through the acquisition setup. Delivery included four campaigns, four landing pages and more than US$4,000 in total ad spend. Case study

Elkhabar Bewodooh | Founder, content strategy & growth

October 2025-May 2026 | Run alongside client engagements

Owned positioning, research, scripts, filming, publishing, community management and analysis. Generated **3M+ views** across roughly four months of active publishing and grew the Facebook audience to around **17,000 followers**. Built filming tools and automated distribution across six platforms, saving more than four hours on active publishing days. Case study

Sorouh Al Sharqiya | Local SEO & content architecture

Built a 71-page website and selected 16 service-and-city pages from 170 possible combinations, using search demand, distinct intent and useful content to guide the structure. Case study

Core capabilities

Strategy & acquisition: Market and competitor research, offers, messaging, funnels, Google Ads, Meta Ads and budget allocation.
Content & SEO: Content strategy, audience retention, distribution, local search, search intent, site architecture and internal linking.
Measurement: Landing pages, GA4, Google Tag Manager, Microsoft Clarity, Search Console and Ahrefs.
AI & operations: Agent and model selection, context and skills, output review, MCP, Python, n8n, CRM workflows, LocalAI and llama.cpp.

Education & selected credentials

Al-Azhar University - Faculty of Islamic Da'wah
Google Ads Search Certification (Google / Skillshop)
Google AI Professional Certificate (Google / Coursera, April 2026)
Advertising with Meta; Measure and Optimize Social Media Marketing Campaigns (Meta / Coursera, January 2026)

Open-source contributions

Merged LocalAI contributions: Codex WebSocket compatibility (#11608); runtime-tested vision and acceleration documentation (#11700).
